

Well the vk2src cape Byron light house weekend was a great success with vk2mnm,vk2lrb,vk2faff,vk6fmgr & vk6fxxx. With great weather, plenty of radios & antennas there was a lot of contacts and making a contact in every state of Australia & new Zealand with numerous enquires on Amateur radio we might end up some New one on air over here or overseas. We had a few old Amateur radio operators call in visiting from Germany. We had a 12 year old boy called Arlien who was plastic free boy to tell his story over air about saving turtles and marine life while recorded by his mum, we will get a copy soon.

Thanks to the National Parks for allowing us to set up and thanks to all that helped.

Hope to see you all again for 2019.
