DIGITAL MODES

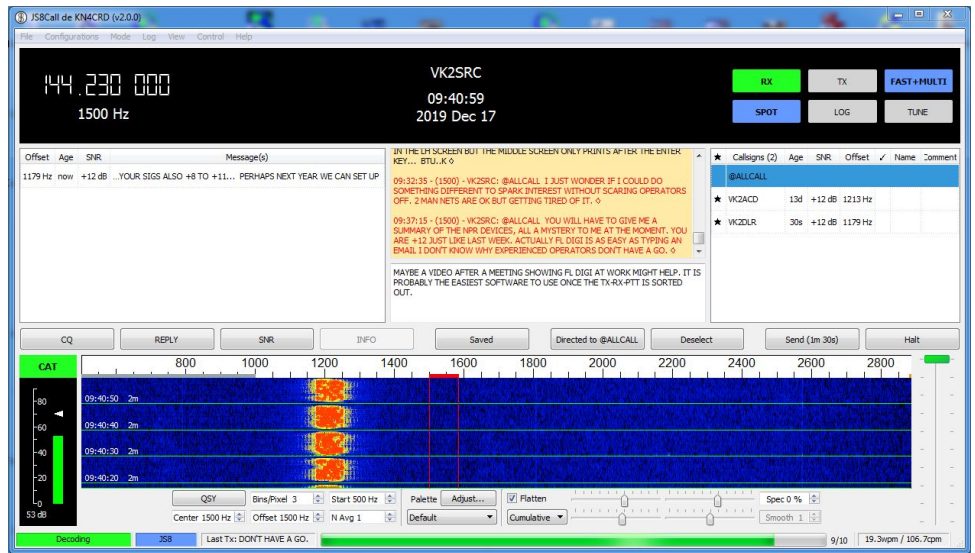

TUESDAY 17 DECEMBER 2019

This Tuesday was the last Digi Net for 2019 due to the approach of the Christmas period. Joining Paul VK2PMG (using the VK2SRC callsign) were Leith VK2EA, John VK2JWA, Duncan VK2DLR, Malcolm VK2OTA and Steve VK2SLM. We had the normal two periods of personal news and chatter before Duncan and I QSY'd to our normal frequency of 144.230 USB.

We used the new version of JS8Call, 2.0.0 and the "fast" speed. Output power for both was 15 watts which was ample, providing 100% decoding of all messages and signal strength of +8 to +10 dB. The main topics of our digi conversations were Duncan's experiments with the NPR devices and our recent contacts using the closely related software FT8.

A very enjoyable net, even though there were only the two of us. Thanks to all who have logged in and participated in the net during 2019. We will start off again in the new year. Have an enjoyable and safe Christmas period.

Cheers from Paul VK2PMG

GENERAL INFORMATION:

Lismore 7-day forecast

Showers...?

“yeah baby”.... hihi

Sun Dec 22	Mon Dec 23	Tue Dec 24	Wed Dec 25	Thu Dec 26	Fri Dec 27	Sat Dec 28
Cloudy	Possible shower	Showers	Showers	Possible shower	Mostly sunny	Mostly sunny
