## Tuesday-Net Report

## DIGITAL MODES

- Paul VK2AMT

TUESDAY DECEMBER 21, 2021

Tonight we had quite a good rollup logging in. Chris VK2ACD, Jeff VK2WSR from his camp at Casino, Duncan VK2DLR, John VK2ZJJ, Andrew VK2AKK, Dave VK2ZDR and Rob VK2ELH joined Paul VK2AMT as VK2SRC. The very pleasant addition to the list was Ron VK2FXRR between Coffs Harbour and South West Rocks. According to Ron VK2SRC was being heard down there via some nice ducting and Ron came in very nicely too.

After that Chris, Jeff, Duncan, and Dave joined me on 3.570 USB for another session with Fldigi and Olivia 8-500. The noise was pretty high but Olivia continued to shine and the decode was maintained well. There was plenty of storm activity offshore but none really close. It's amazing that the bursts of static from lightning doesn't seem to bother Olivia or upset decoding.

Another good net with excellent support. My thanks to all who log in and support the digi net. Cheers from Paul VK2AMT (as VK2SRC)
