## Tuesday-Net Report

## DIGITAL MODES

- Paul VK2AMT

TUESDAY 31 MAY, 2022

Tonight, joining Paul VK2AMT as VK2SRC were Duncan VK2DLR, John VK2ZJJ, Chris VK2ACD, Jeff VK2WSR and Dave VK2ZDR. After our two customary rounds of chatter Duncan and Chris followed me to 7.046 USB.

Another session of Fldigi, Olivia 8-500, battling the noise and random signals on HF. Both Duncan and I were able to receive and decode each other fine. Chris had reasonable success with my signal but couldn't decode Duncan at all. The topography may not have been as favourable for Chris for ground wave reception so he didn't continue, understandably.

We did try 80 metres, 3.590 USB but my antenna was registering high SWR. Not ideal for digital modes, so Duncan and I went back to 2 metres Parrots Nest for the last 10-15 minutes or so.

Not the best of conditions, fairly high noise, but thanks to Duncan and Chris for participating.

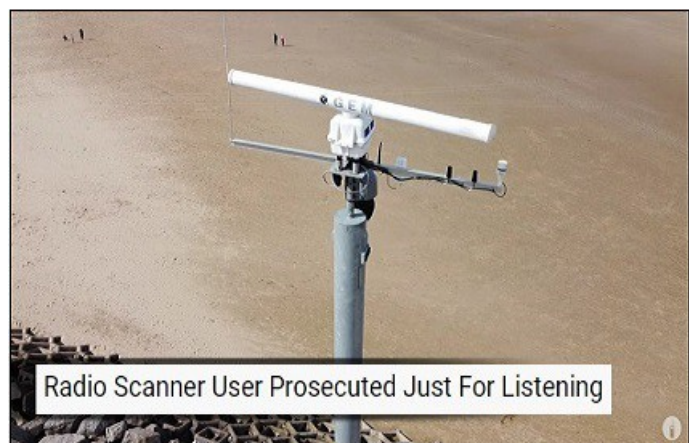

– Cheers from Paul VK2AMT (as VK2SRC)
