## Tuesday-Net Report

## DIGITAL MODES

- Paul VK2AMT

TUESDAY 26 JULY, 2022

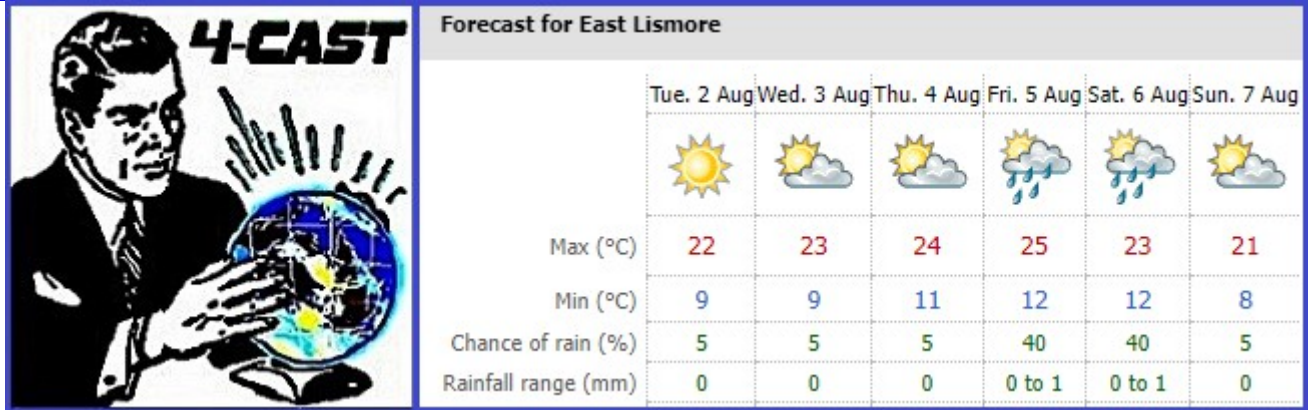

This evening, joining Paul VK2AMT as VK2SRC were Duncan VK2DLR, John VK2ZJJ, Chris VK2ACD and Dave VK2ZDR. So, we had our normal couple of rounds of chat before Duncan, Chris and I headed for 80 metres, 3.590 USB. We found out after QSYing that Jeff VK2WSR was there waiting for us.

Fldigi and Olivia 8-500 was the mode again. It's difficult to think of a better combination for keyboard to keyboard modes than those two. The speed of Olivia is a bit slow but that allows two fingered typists to cope and also to correct typos on the fly, before the encoding catches you.

There was some more static and some distant lightning crashes offshore than last week but the decode didn't suffer. Chris had some radar interference but I don't think anyone else heard that. A strong, cold south westerly wind sprang up during the net. We were all feeling a bit tired for various reasons so we called it a night somewhat earlier than normal. Another good net. Thanks to all who logged in and participated.

- Cheers from Paul VK2AMT (as VK2SRC)
