Tuesday-Net Report

DIGITAL MODES

- Paul VK2AMT

TUESDAY 18 APRIL, 2023

Tonight, joining Paul VK2AMT, using the club callsign of VK2SRC were: John VK2ZJJ, Jeff VK2WSR, Duncan VK2DLR and Dave VK2ZDR. As usual, we had our normal couple of rounds on Parrots Nest 2 metres before Duncan and I gathered on HF, 7.048 USB, for another go on Fldigi, Olivia 8-500. Here we were joined by Jeff who was located at Port Wakefield, near the head of St Vincent Gulf, South Australia. Jeff was operating remotely through the club's Icom 7300 at Richmond Hill. Jeff had purchased a new laptop, an i5 Surface Pro which worked really well. Perhaps that is the reason why Duncan and I decoded Jeff 100% through the net. There was not one scrambled character all night.

Duncan was feeling the affects of a heavy day and Jeff was travelling tomorrow so we didn't have a late night. All of us were very satisfied with the way the net had gone and the 100% decoding accuracy we all had. Thanks to Duncan and Jeff for their support. I appreciate Jeff making the effort to join us on the Digi Net on his travels, that's true dedication to the important experimental side to our great hobby. It's a really cool thing to be able to make that remote operation work so well.

Unfortunately, no screenshot. I was sure I had saved one but not so!

-Cheers from Paul VK2AMT (as VK2SRC).

6-DAY LISMORE (FORECAST). Click image to open METEYE (2480 for East Lismore).
