### HARRY ANGEL MEMORIAL SPRINT

MAY 6<sup>th</sup> 1000 UTC – 1146 UTC

### TERC ENDURO

May 20<sup>th</sup> 0900 hrs - 21<sup>st</sup> 1600 hrs

### COMMITTEE MEETING

MAY 21<sup>st</sup> 1300 hrs – 1600 hrs

NB: Date not yet finalised.

### DON EDWARDS SLOW MORSE

MAY 20<sup>th</sup> 80m @ 0800-1100 UTC

MAY 21<sup>st</sup> 40m @ 0300-0600 UTC

### CQ WPX CW

May 27<sup>th</sup> 0000 UTC - 28<sup>th</sup> 2359 UTC

## Tuesday-Net Report

## DIGITAL MODES

- Paul VK2AMT

TUESDAY 25 APRIL, 2023

This evening, joining Paul VK2AMT, as VK2SRC were: Duncan VK2DLR, John VK2ZJJ, Jeff VK2WSR and Dave VK2ZDR. We had our usual couple of overs consisting of personal news and chatter before we QSY'd to our normal frequency on 40 metres.

Before RSID: <<2023-04-25T10:26Z OL 8-500 @ 14170000+1500>>  
 q) VK2ZDR  
 Goo Nveni gYto you all...  
 good sigs thus far! well except for that last one, i only got 'bits' this way too...  
 I'm guessing it w s Jeff...so i will shov< it overto him (just in case) hihi  
 VK2WSR de grp VK2ZDR

 Thanks Da  
 Duncan was -3 or so, quite good so far. Good signal on waterfall.  
 Duncan S9+ a bit. Dave well down here -11 to -12, near the limit.  
 Nothing on waterfall from Dave at all.

Duncan, Jeff and Dave all joined me on 7.048 USB using Fldigi's Olivia 8-500. It was very good that Jeff continues to log in remotely during his trip to South Australia. This was a fitting reward for all the hard and continuing work put in by Ross VK2ARD to install and maintain the remote control software which enables our operators to use the club's radio gear from well outside the local area. The fact is that this additional layer of remote control and internet connections doesn't stop digital modes from working. This still amazes me. Signals here were still weaker than the rest of the group, Dave's

was particularly low but that didn't affect decoding accuracy. The noise on 40 metres at my location on the Yaesu FT-897 was still S9.

Another excellent net. Thanks to all who logged in and participated, it is sincerely appreciated.

-Cheers from Paul VK2AMT (as VK2SRC).

## WORKING BEE AT THE CLUBROOMS

-Paul VK2AMT

Here is a report on the working bee this weekend.

We had a very good attendance at the working bee on Saturday and Sunday. Ross VK2ARD, David VK2IXI, Paul VK2AMT, Duncan VK2DLR, Dave VK2ZDR, Brian VK2MBJ, Rob VK2ELH and Mark VK2UMA all attended on Saturday. The main shed was the centre of attention. It has been the gathering place for years of accumulated bits and pieces. There was another effort today (Sunday) to sort and remove anything of no value.

Ross's trailer was loaded up with metal for recycling on Saturday and on Sunday most of us also loaded another load of general waste, best described as old junk. Anything of general or historical value was put aside. There is now plenty of clear room to access and separate any items stored in the shed for checking and possible sale at the SARC Fest, pencilled in for July 22. Ross expressed his grateful thanks to all who turned up and worked so hard on both days.

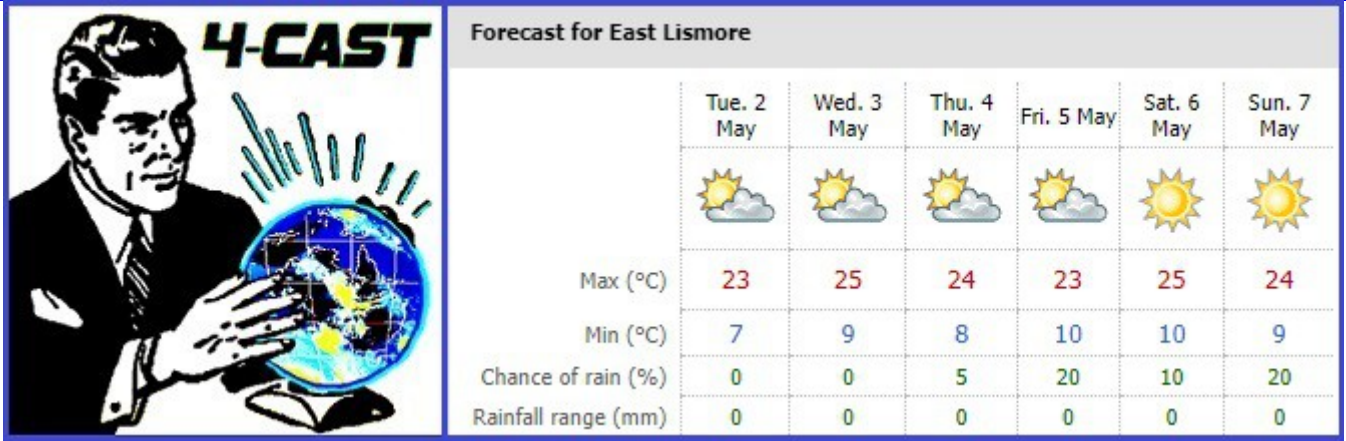

Australian Bureau of Statistics Happy #MorseCodeDay!! Can you decipher the number of Communications Operators in Australia who use Morse code?  
27 April at 10:00 · 🌐

Happy --- .-...../-.-.-.-.../-...-.-.- to the .----.-----.---- Morse code operators in Australia

Note: Refers to Communications operators

# Anderson Connect

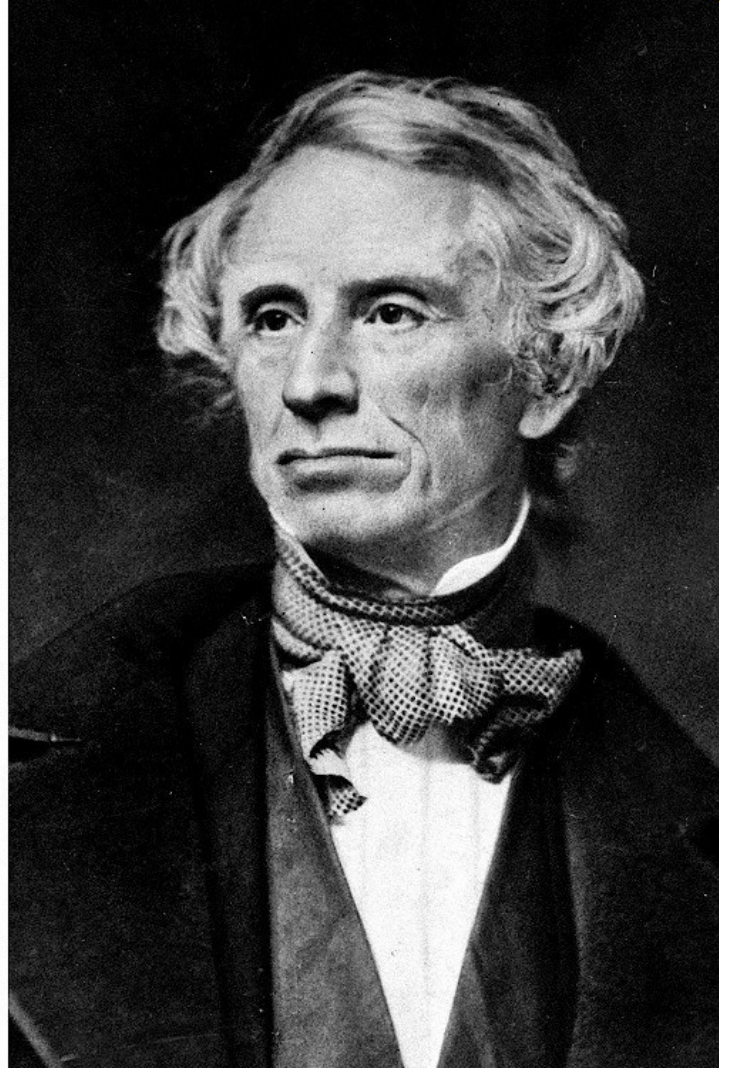

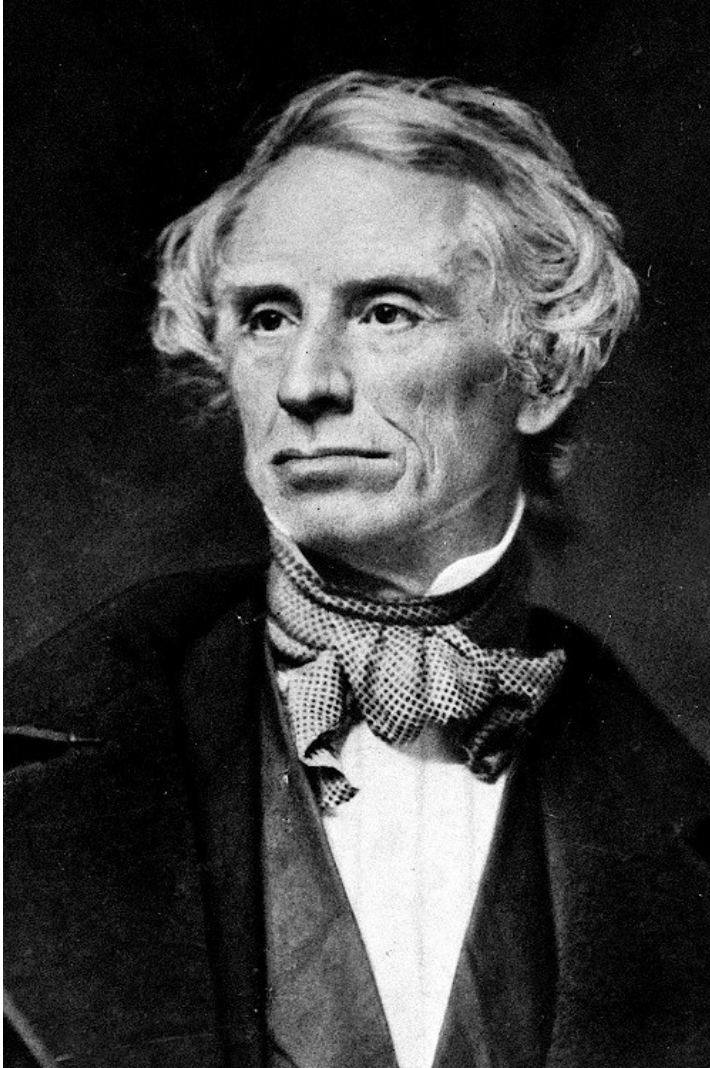

Contributed by Dave VK2ZDR.

"I have found a great AU website that some might find very handy for buying Anderson Connectors. I have bought bits from them a few times & they seem to be pretty good prices too".

**SPOT THE DIFFERENCE** The R-H image of Samuel Morse has 10 alterations. Can you spot them?
